Sustainable Solutions

The Fresh 'n Clear CaterEase Collection is just one product in Placon's food packaging line containing EcoStar FDA-approved, food-grade recycled PET. CaterEase trays, bowls and lids are produced from up to 100% recycled materials and are 100% recyclable.

Beautiful Presentation

Caterers face unique challenges in the food service industry which is why we had caterers in mind when we designed our reliable line of trays, bowls and lids with features and options that make delivering and presenting food effortless and secure.

High Dome Lid

Low Dome Lid

CHOOSE HIGH OR LOW LID DESIGN

Patent-pending lid design features no sidewall ribbing for exceptional product visibility, putting food styling and product freshness center stage. The unique lid design also allows for easy, secure stacking.

Fresh 'n Clear™

CATEREASE™ COLLECTION

For catering, it's all about presentation.

Our polished line of disposable platters and bowls allow you to securely, attractively and sustainably present a wide assortment of foods from sandwiches, salads, fruit and veggie trays to hors d'oeuvres and desserts. With a sleek design that lets your food take center stage, the CaterEase™ collection is designed to convey a high-end feel at an affordable price. And, when sustainability matters, our crush and crack resistant party trays, bowls and lids are manufactured with environmentally-friendly, food-safe, recycled PET.

- Tight lid to base seals ensure product freshness while allowing you to stack and transport food from restaurant/supermarket/home to venue with total confidence.
- Lids are designed with virtually no overhang on the base to prevent unexpected, accidental removal of lids during handling and delivery.
- Tray base venting system slowly releases trapped air preventing lid "ballooning" for easy stacking.
- Trays low, sleek profile enables your customers to see product clearly for strong food presentation from any angle.
- Large lid tabs are designed for easy gripping and effortless lid removal ensuring product contents are undisturbed.
- Clean-up is made easy and earth-friendly with disposable, 100% recyclable bowls, trays and lids made from a minimum of 35% post-consumer content from bottles and thermoforms.
- Perimeter tray base channel holds liquids away from food to extend freshness.
- Offering maximum branding visibility options, domed lids and bases as well as 1-4 tray sidewalls can be customized with your logo or other designs.

PLACON IS YOUR SOLUTION FOR FOOD PACKAGING

For virtually any retail food environment—supermarkets, delis, quick marts, restaurants, cafeterias, food carts and beyond—Placon provides thermoform packaging products that deliver superior performance. Quality designs, secure seals and exceptional clarity all play a role in our industry-leading containers. Polypropylene and PET options mean our packaging can accommodate virtually any food product, use and environment.

And, our EcoStar® food-grade recycled PET (with up to 100% post-consumer recycled content) allows you to market your products while showing consumers your commitment to sustainability. With your help, Placon is turning over 1 billion used bottles and thermoforms a year into environmentally-friendly, recyclable materials.
